COMPANY DESCRIPTION

Naval & Mechanical
Design

OUR COMPANY

BluSea is a technical office specialized in Naval and Mechanical design. The office can support all the stages of the design as follows:

- Conceptual design;
- Contractual design;
- Executive design.

The company was opened by Luca Biasci and Simone Biasci (both engineers) and in a second time was joined by an engineer (Anna Lorenzini) and a designer (Ivan Iofrida) .

Naval & Mechanical
Design

EXPERIENCE

The free lance activities begins in 2005 with the former Fast Service snc company; in 2018 Fast Service was reorganized and renamed in BluSea.

In these years BluSea was involved in many projects, in defence, work and pleasure sectors.

Our company design vessels up to 40 m built in metal and composite materials.

During the past years our company participated to many tenders issued by Italian and foreign Administrations.

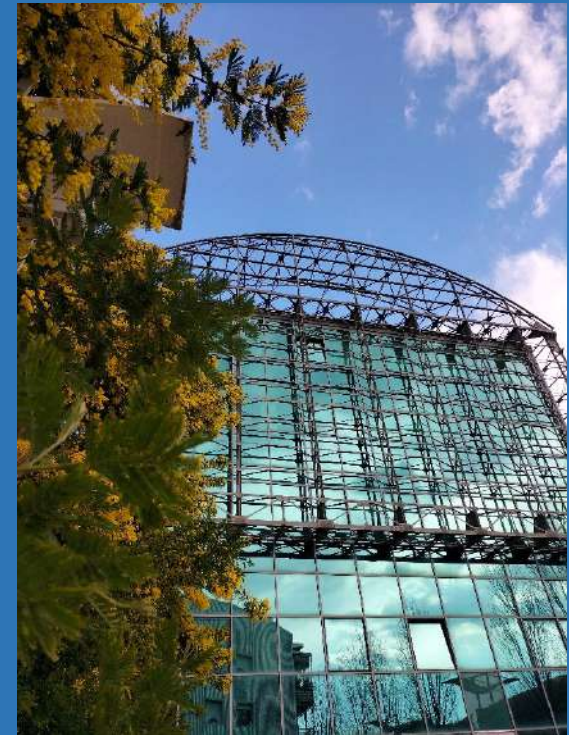

Naval & Mechanical
Design

HEAD OFFICE

BluSea studio is located in Santo Stefano Magra (La Spezia, Liguria region, Northern Italy) in one of the most important areas of the World for the Marine Industry

ACTIVITIES
